

BENDING COURSE
HANDS ON

WITH DR. MARTIN BAXMANN

Saturday 24th of September 2022
Pécs, Hungary

AO AMERICAN
ORTHODONTICS

BENDING COURSE

HANDS ON

This course is a classic. Many orthodontists know Dr. Baxmann's video tutorials on Youtube, Facebook and Instagram. But the course goes even deeper. Biomechanics won't appear like rocket science anymore. The concepts explained in this course will become crystal clear and easy to incorporate in your daily practice.

They will facilitate your treatment mechanics for high quality results on every case. Dr. Baxmann's Lean Orthodontics® wire bending is simple, reproducible and saves you time and energy. Learn to decide when wire bending is the best option, but also when to use another solution.

And don't forget the bonus gift: The Baxmann pliers. After their demonstration and individual calibration you can take them home. For free! You will enjoy this course as it will be an unforgettable combination of fun, enthusiastic presentation and intense work.

SPEAKER

DR. MARTIN BAXMANN

Dr. Martin Baxmann is CEO and founder of Orthodentix, a group of five clinics specialized in orthodontic treatment and MyOrthoLab which delivers specialized orthodontic laboratory service all over Europe. He has developed various orthodontic appliances, instruments and tools for radiographic diagnoses and case planning. Dr. Baxmann has published several scientific articles and lectures regularly worldwide. Martin is well known for his good dry sense of humor and the capability to explain even the most complex contexts in simple and understandable ways.
